

CARRON
PHOENIX

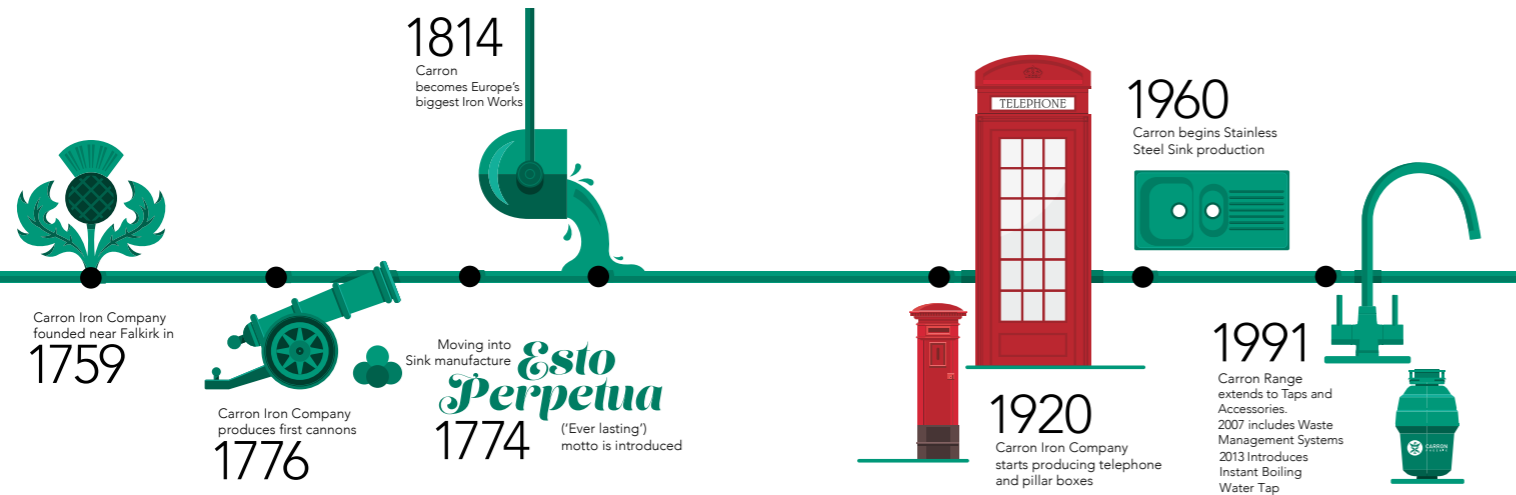

MARCH 2026

Sink & Tap Range
& Pack Deals

The **Carron Phoenix** story began in 1759 when the Carron Iron Company was founded near the town of Falkirk in Central Scotland.

Famed for the manufacture of the iconic red telephone boxes and pillar boxes still in use throughout the UK today, the Carron Iron Company was considered to be the centre of the industrial revolution in Scotland and quickly became the largest iron works in Europe.

Moving forward more than 250 years Carron Phoenix is now one of the leading manufacturers of kitchen sinks in the UK. Our sink design philosophy means that we do not compromise between stylish good looks and practicality. Whether Granite, Stainless Steel or Ceramic, all of our sinks are guaranteed for a lifetime, so you can be confident that they are of exceptional quality and are made to last.

To complement the perfect sink, our extensive range of taps, accessories and waste management systems gives you an all-round solution for getting the most from your kitchen sink space. Carron Phoenix manufactures products that are beautiful to look at and excellent to work with.

Guarantees valid on products placed and used in standard domestic situations

GUARANTEES

As Carron Phoenix sinks are built to the highest manufacturing standards, we are proud to offer an extensive guarantee on all of our products against manufacturing defects.

Full details of our guarantees can be found on: www.carron.com/guarantee

Choosing a sink

There are a number of factors to consider when choosing your kitchen sink; functionality is just as important as design, and here is a short guide to the initial decisions you will need to make before choosing the right model for you and your kitchen.

Sink configurations and cabinet size

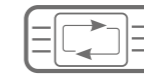

Whether you prefer the larger capacity of a single bowl or the versatility offered by a one and a half bowl sink, there are options to suit. The following symbols are used throughout this brochure as a guide.

Left hand drainer:
The drainer is to the left of the main bowl.

Right hand drainer:
The drainer is to the right of the main bowl.

Reversible drainer:
The sink has tap holes front and back to allow the sink to be fitted with the drainer to the left or the right.

Left hand 1/2 bowl:
For sinks without a drainer but multiple bowls. Indicates the small bowl is to the left of the main bowl.

Right hand 1/2 bowl:
For sinks without a drainer but multiple bowls. Indicates the small bowl is to the right of the main bowl.

Inset

Inset sinks are mounted from above, and the edge of the sink sits on top of the worktop. This is the most standard type of installation and can be used with all worktop types, including laminate worktops. Inset sinks generally have a drainer board and are available in a wide range of styles and materials to suit your preference.

Undermount

When your worktop is made from a solid-surface material, such as granite, solid wood or engineered stone, you have the option of choosing an undermounted sink. This style is installed from beneath the work surface and allows for a clean minimalist look to the kitchen. Drainer grooves are often cut into the work surface to complete the elegant look.

It is essential to check the cabinet size of your kitchen to ensure that the sink will fit. Throughout the brochure, 'Min Cabinet' indicates the minimum cabinet size (measured left-to-right) required to allow the sink to fit.

Stainless steel sinks are practical, hard-wearing and easy to clean. Available in polished, unbrushed or brushed finishes.

Granite sinks use real granite particles, this material gives you the flexibility to introduce colour into your sink area.

Synthetic sinks offer excellent heat, shock and impact resistance at a value-for-money price level.

Ceramic sinks add a touch of elegance whether your kitchen design is traditional or contemporary.

Choosing a tap

Throughout our brochure we offer a wide choice of sinks to suit all tastes. Each of these sinks is shown with a Henley tap. However, if you would like to upgrade your tap to your choice and specification, please refer to pages 40 - 43 for our full range.

Perlator: Mixes air into the flow of water to give a Coffee-like flow.

A beautifully tactile material which allows you to make a real statement in your kitchen. The versatility of granite allows Carron Phoenix to create a range of designs which combine form and function perfectly.

No other kitchen sink material offers the durability and hard-wearing properties of Carron Phoenix Granite. We use real Granite particles – the fourth hardest material known to man as the main component of every sink. Carron Phoenix Granite sinks will retain their great looks for a lifetime and is supported by a Lifetime Guarantee against manufacturing defects.

GRANITE

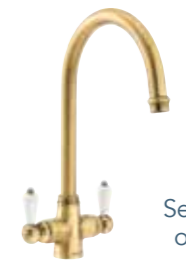

INSET AND UNDERMOUNT SINKS

Each Carron Phoenix sink is supported by a **Lifetime Guarantee** against manufacturing defects

YOU CAN'T SCRATCH IT
Knives and forks won't mark or score the surface.

YOU CAN'T SCORCH IT
Even at 280°C the surface will not burn.

YOU CAN'T STAIN IT
Carron Granite sinks are highly resistant to staining, marking and fading.

EASY TO CLEAN
Carron Granite sinks are now 30% smoother than before and even easier to keep clean.

Choice of colours

Our granite sinks come in a choice of classic and contemporary neutrals, that offer superb design scope for combining with a wide range of work surface materials. Some of our colours contain metallic particles for a beautifully subtle, but rich appearance.

STAINLESS STEEL

INSET AND UNDERMOUNT SINKS

The professional's favourite. You can wash and buff it and over time it will develop a beautiful patina. Even with years of rigorous use, Stainless Steel maintains the good looks that have made this material such a popular choice. All of our sinks are made from high quality Stainless Steel, ensuring their lasting quality and performance. Practical, stylish and always of the highest quality, it's easy to find the right design for your kitchen.

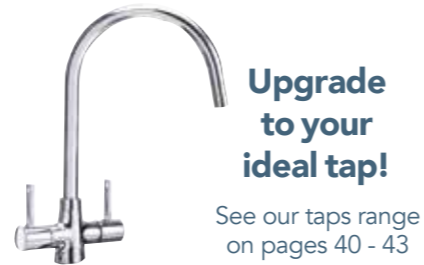

Each Carron Phoenix sink is supported by a **Lifetime Guarantee** against manufacturing defects

Our tap range is designed to complement your Carron Phoenix sink, offering contemporary, traditional or designer styles with single, double-lever or filter options.

Select a tap suited to your home's style and water pressure. Many older properties require models designed for lower-pressure or gravity-fed systems. If you have low water pressure, choose a low-pressure-suitable tap. High-pressure systems suit any tap. Check the icon beside your chosen tap for recommended water pressure.

TAPS

Atoll 150 with Rosolins Tap in Chrome

Household water pressures (minimum tap flow rating)

0.2-0.5 bar

0.5-1.2 bar

1.2-1.5+ bar

Each Carron Phoenix mixer tap is supported by a **Five year comprehensive Guarantee** against manufacturing defects.

FILTER TAPS DANTE TRI-PURE

Dante Tri-Pure Filter offers excellent filtration performance thanks to its double filtration system of charcoal and ceramics specially impregnated with silver particles.

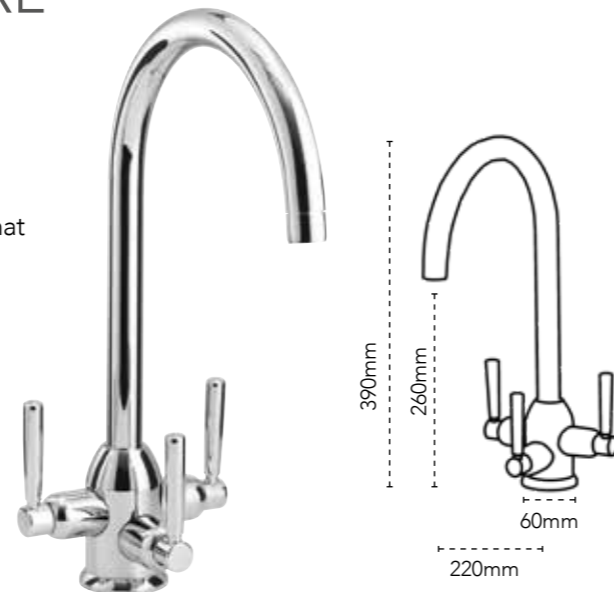

The filter removes unwanted chlorine, cryptosporidium and other harmful bacteria and particles, yet leaving you with the minerals that are good for you.

WASTE MANAGEMENT

A quick, easy and efficient way to prevent organic waste going into landfill!

With the environment in mind, we have a range of waste management solutions that can help you dispose of your waste in a highly efficient and eco-friendly way.

New food waste rules? Carron Phoenix disposers make it simple - fast, safe and hygienic waste handling without the fuss.

Carronade Elite Waste Disposal Units

Waste disposal units install easily with existing under-sink plumbing and operate simply. Premium-spec models are sound-insulated for quiet use, septic-safe and highly-efficient. Carronade Elite waste disposal units suit everyday use. Feed food into the disposer during operation. Control via separate air-switch (supplied).

Waste Sorter Bins

Carron Phoenix waste sorter bins fit easily into kitchen cabinets and help segregate waste before collection. Each model includes removable bin inserts and covers to contain odours.
